GF264 FORGED MONOBLOCK

THE FUTURE OF MOTION, ENGINEERED TODAY.

With over 20 years of expertise, GISA is synonymous with pioneering spirit and the relentless pursuit of perfection. We build more than products; we build a history of innovation on four points of pure engineering.

With our global headquarters based in Florida, every GISA is **Designed in the USA**. Our aesthetic language combines the aggressive spirit of American automotive culture with the sophisticated precision of world-class engineering. This strategic backbone allows us to set trends rather than follow them, ensuring that every spoke and curve meets the highest international standards.

More Than Wheels. A Legacy of Trust.

GISA. Driven by the heart of automotive passion.

High-End Performance Wheels.
